DQ - Designed Quantities; AQ - Actual Quantities; LSQ - Lump Sum Quantities

#### Notes:

- 1) All equipment shall be washed and free of weed seeds prior to entering the job site. The equipment shall be inspected by the owner at the County Shop.
- 2) The above Schedule of Items represents the quantities required to complete the primary work identified on the Site Plan. Additional work has been identified on the Site Plan and the owner has the option to authorize that additional work. The owner reserves the right to increase or decrease the amount of gravel and hours for each item with no adjustment to the unit price.

## **DESCRIPTION/SPECIFICATIONS/STATEMENT OF WORK**

### **Project Description and Location**

(a) **Description of Work.** This project involves clearing and grubbing, excavation and embankment, roadway obliteration, hauling and placing pit run aggregate, furnishing and installing culverts on NFSR 150 (Rock Creek). This contract requires furnishing equipment on a fully-operated basis, in good mechanical and operating condition. It shall be operated by competent operators experienced in performing road construction type of work required by this contract. The Contractor shall provide all equipment, operating supplies, operators, supervision, and support functions necessary to perform the required work required under this contract. The work will include but is not limited to preparing the subgrade, excavating and constructing, and other road related improvements. The Sanders County Road Manager and the Cabinet Ranger District Engineer will provide direction for all hourly work that will be performed.

**\*Note: The owner reserves the right to reject any operator that is not qualified or is not performing work to reasonable standards or achieving adequate production rates.**

**All construction activities affecting live stream channels shall be performed between July 15th and September 1st or when stream channels are dry. A 124 permit is required prior to construction and shall be provided by the Owner. Contractor shall keep a copy of the permit at all times during live stream work.**

**The contractor will be responsible for construction signing and accommodating public traffic during construction including dust control. The contractor shall submit a traffic control plan prior to construction.**

(b) **Project Location.** The project is located East of Noxon, MT on NFSR 150 Rock Creek Road (See Site Plan).

(c) **Site Visit.** No formal site visit is scheduled. Questions regarding the project may be directed to Jared Koskela, Cabinet RD, at (406) 546-5894 or Lee Smith, Sanders County Road Dept. (406) 827-3691.

(d) **Period of Performance.** The successful bidder will be expected to complete the work during the performance period of **upon award to September 1, 2025.**

### **1.2 - STANDARD SPECIFICATIONS**

"Standard Specifications For Construction of Roads and Bridges on Federal Highway Projects" (FP-14, U.S. Customary Unit), are included in this solicitation by reference only. The requirements contained in these Specifications are hereby made a part of this solicitation and any resultant contract.

Copies of the "Standard Specifications For Construction of Roads and Bridges on Federal Highway Projects" (FP-14, U.S. Customary Unit), are available at <https://flh.fhwa.dot.gov/resources/specs/> .

### **1.3 - SUPPLEMENTAL SPECIFICATIONS**

The attached Special Project Specifications are applicable to this contract.
